PROJECT

Portfolio Website

- This project showcases my personal portfolio, my contact details, skills and my Education Background.
- This project was developed on HTML5, CSS3, and JS.
- As Libraries I've used Bootstrap as CSS library and JQuery as JavaScript Library.

Real Estate Pro

- The system should have a login. A login box should appear when the system is invoked.
- The admin should maintain property. Admin identify property type as it is residential or commercial property.
- The admin user can inform their agents for regarding to property and update the information regarding property and cancellation of property or changing buyer choice.
- The system is also useful which also keeps track of Account details of buyers and Investors and also RES Industry.
